

art.PM(D)(S)/LXR/CC1:2

MOBILE PLATFORMS WITH ROTATING NUT mod.20/60 in nitrided steel with bronze flange nut, 1:2 ratio paired bevel gears and accessories (Platform made on Supports Base PM/BD R ...). The standard rotating nut has a right thread; **if requested, it can be made with a left thread as a special item.**

Assembled mobile Platform PMS/LXR/CC1:2 ...

Standard fitting on the mobile part above with bolts from above (alternatively with bolts from below).

Standard fitting on the mobile part below with bolts from below (alternatively with bolts from above).

PlatformPMS/LXR/CC1:2 - exploded diagram

- > On request it is possible to use two different special accessories on the mobile Platform of which one for **play adjustment**, whilst the other in vertical/oblique use has the function of **indicating rotary nut wear** (see page .233).
- > As shown on page 235 the mobile Platform has to be ordered specifying the drive input side, “PMD” (right) otherwise “PMS” (left), to ensure correct fitting.

> Complete diagrams showing how to fit to the machine are on page 264

> D = Nett size of the mobile Group on the trapezoidal screw

> Approximate weight of the mobile Platform complete with Supports Base PM/BDR and fitting bolts.

> The supports above are shown assembled in the **Rotary nut**, Groups (see preceding pages) for which it is possible to calculate the total weight by adding them to the weight of the TR screw using the table on page 182

> To comply with safety regulations it is obligatory to use the locking tabs, the fitting hardware supplied, and ensuring that the arrows engraved in the supports are all facing in the same direction, which for vertical/oblique movements must be facing downwards.
