art.DVA

FIXED SUPPORTS mod.10/60 in nitrided steel, with reduced dimensions, axial/radial bearings and accessories.

Assembled DVA support

DVA Support - exploded diagram

Standard fitting on the machine with or without Supports Base

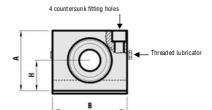

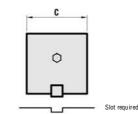

> Support DVA ready for fitting to the machine. Available if necessary, as shown in the two photos, with Supports Base art.BD LV (please see page 86).

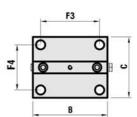

> Accessory support bracket art.SMA (please see pages 88-89).

* Alternatively, for particular technical requirements for manual/horizontal movements, the DVA support is available with self-locking ring GHA (please see page 51).

> Complete diagrams showing how to fit to the machine are on pages 101-103.

> Approximate weight with accessories and fitting bolts, excluding Supports Base BD LV.

> C = Nett size of the support excluding accessories like ABA, GBA/Kit etc.

> The supports above are shown assembled in the Compact Steel Groups (see preceding pages) for which it is possible to calculate the total weight by adding them to the weight of the TR screw using the table on page 69.
> To comply with safety regulations it is obligatory to use the locking tabs, the fitting hardware supplied, and ensuring that the arrows engraved in the supports are all facing in the same direction, which for vertical/oblique movements must be facing downwards.
